Subject: (External):follow up on comments concerning Scripps seismic research

Dear Colleagues on the CEP

As promised at our last CEP meeting, I have followed up on comments made about the integrity of the Scripps research on seismic risks in southern California. I attach a memo summarizing what I have learned, along with a sprawling reply from the Public Watchdogs group.

All best wishes,

David Victor

**To:** "David G. Victor"

**Subject:** FW: CEP Q: Authority for SONGS easement

David: Here is the answer to the question regarding the authority of the Navy to SCE to lease land other than the easement.

"ANSWER: In 1963, Congress authorized the Department of the Navy to grant an easement on Marine Corps Base, Camp Pendleton to two utility companies, Southern California Edison and San Diego Gas and Electric, for the construction, operation, maintenance, and use of a nuclear electric generating station. This Congressional authorization, Public Law 88-82, is readily available to the public."

A copy of PL 88-82 is attached

Merry Christmas!

Tom
