

**SAN ONOFRE NUCLEAR GENERATING STATION (SONGS)
STEAM GENERATOR REPAIR TEAM (SGR)
083112 Meeting Summary – SGR/MHI U3 Engineering Level 1 Process**

MEETING PURPOSE:

The purpose of the meeting is to review SGR U3 Engineering Level 1 process flow charts with MHI.

SUMMARY:

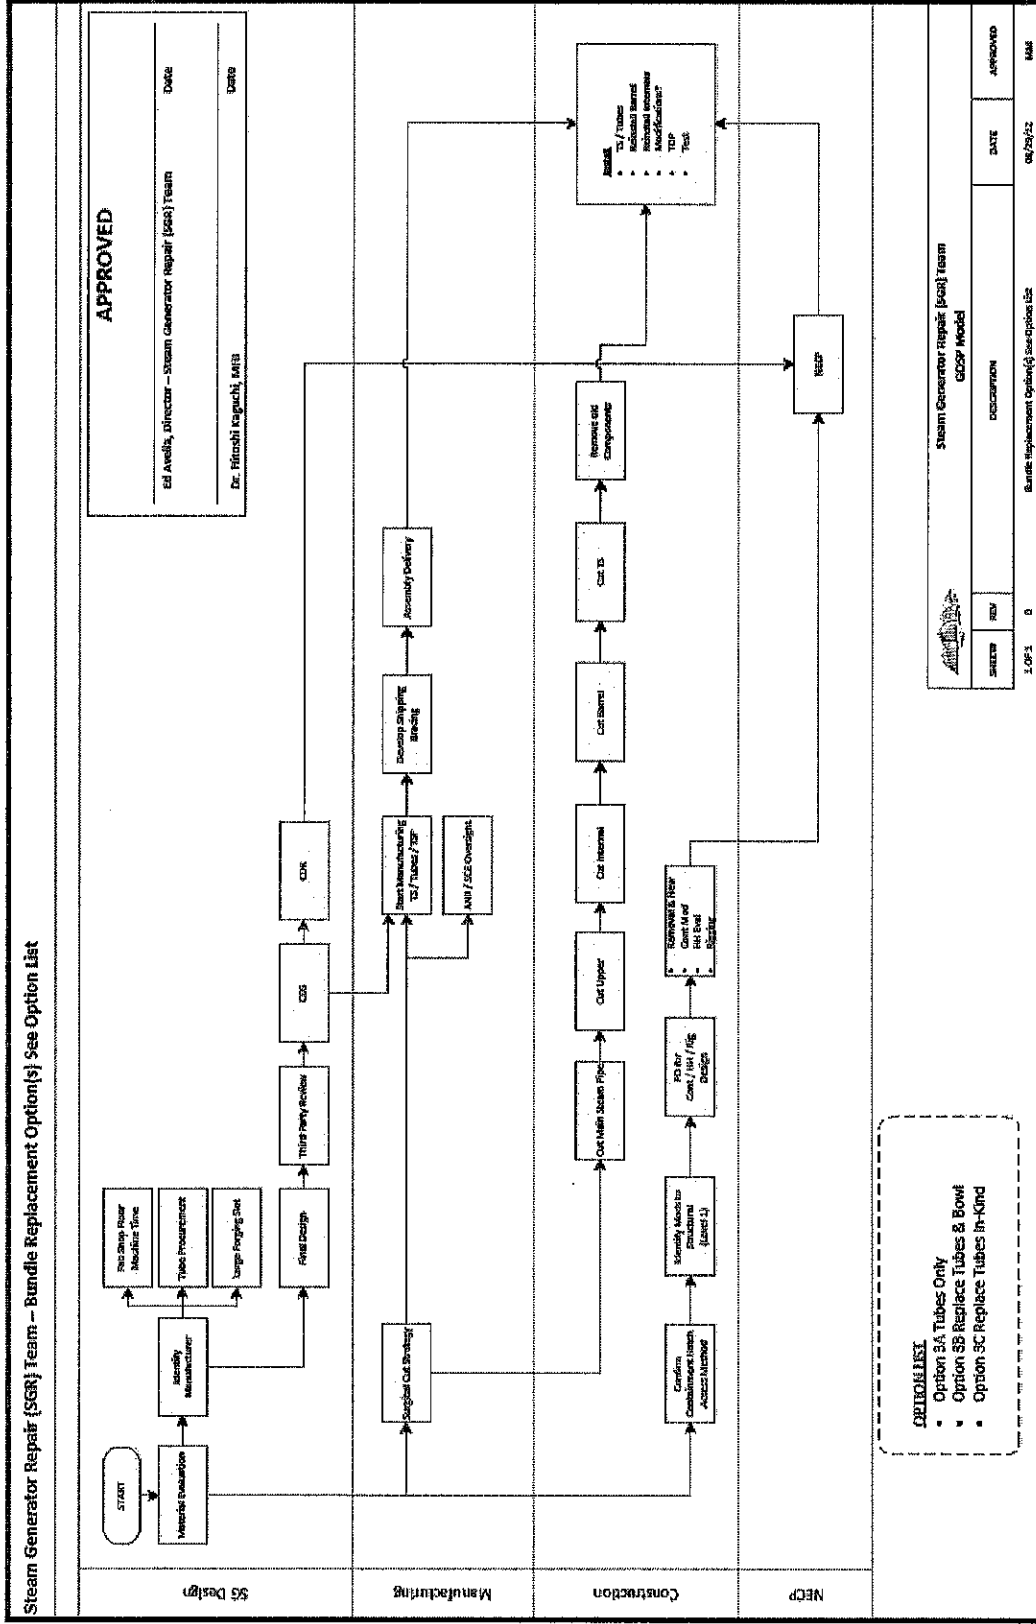

- Reviewed the U3 SGR Engineering Level 1 Process document with the following comments:
 - Minimize the “CFD” branch
 - Add “MHI Recommendation” box
 - Expand “Repair/Replace Feasibility” description to the extent possible
 - Move “CDR” to “Manufacture” box
- Reviewed the Bundle Repair Option for Type 3 document with the following comments.
 - Change “Identify Manufacturer” to “Manufacturer to Start”
 - Change “Final Design” to “Conceptual Design”
 - Add “Final Design” box in parallel with “Third Party Review”
 - Change 3A, 3B, 3C to 3.1, 3.2, 3.3 respectively in the OPTION LIST.
- Badging Information on use and requirements at SONGS were discussed.
- Memorialize Decision Map chart did not have Joe Hutter’s comments. Decision Map now includes all comments.
